Re: Foreshore Licence Application for Site Investigation in Sruwaddacon Bay

Dear Mr. O' Brien,

Further to our Foreshore Licence application for Site Investigation in Sruwaddacon Bay submitted Thursday 14th January, and the map subsequently issued in respect of borehole scope, we confirm as follows:

- The map contained in Section 5 of the Application Document, and which shows the survey area being Sruwaddacon Bay as a whole constitutes the application boundary and we seek permission for geophysical (non-intrusive) surveys within this boundary.
- The bore-hole investigation described as a geotechnical survey is now proposed to be carried out within the corridor which is shown on the attached map (submitted to the Department on Thursday 28th February). As such the area proposed for the geotechnical investigation is contained within that shown on the map referred to above, but is further delineated by the corridor shown on the new map.

If you have any further queries, please do not hesitate to contact the undersigned.

Yours sincerely,

Agnes McLaverty
Permits & Consents Manager
